# CHARGING STATION | ASTERIA MOVE ACCESSORY

Designed by UIMAGE Design Team

## STYLISH AND SLEEK BLACK

Charging Station is an accessory for the Asteria Move portable lamps, designed for restaurants as a simple and easy solution for charging all your Asteria Move lamps at once every night when closing the restaurant.

The Asteria Move has quickly become a popular light in cafés and restaurants, adding the perfect atmosphere at every table. That's why UIMAGE is now introducing the Charging station, to make the charging of the lamps time-efficient for the restaurant staff.

The Charging Station works as a shelf with room for seven Asteria Move lamps. The shelf should be combined with the Unifier wireless chargers and Unifier Hubs from UIMAGE, for easy wireless charging. Simply place your Asteria Move in the designated spot on the shelf and let it charge overnight and they'll be ready for yet another day in the morning.

In stylish black coated steel, the Charging Station offers a sleek expression in the back office of any restaurant, café, or hotel.

Unifiers and Unifier Hubs are not included.
