

UOVO RECHARGEABLE

Ben Swildens, 2023

A natural form and timeless symbol of perfection, in which symmetry and asymmetry harmoniously coexist. Designed in 1972, the 'shell' of the egg contained a light source: an ironic idea that still works today. As in nature, the shell of the UOVO lamp is the embodiment of absolute lightness, an elegant form in white satin blown glass that gives off a warm, uniform light.

Rechargeable table lamp, made of blown glass. Integrated and dimmable LED light source – A transparent touch button allows for turning the lamp on and off and adjusting the light intensity. The lamp is powered by a rechargeable battery with an 8-hour lifespan, rechargeable via the included USB cable. Wall plug adapter not included in the package. Suitable for indoor and outdoor use.
