

Swap mini _Table

Swap mini is a rechargeable battery-powered cordless table lamp. A "touch" control on the base allows switching on/off and dimming. It is suitable for both indoor and outdoor use (except gold and silver finishes). An electronic control system monitors the remaining autonomy and ensures a constant luminous flux until the battery runs out. Recharging is therefore optimized and always properly done. The lamp comes with a contact charging base; the battery charger is not included. Swap mini can be customized choosing from a range of ceramic lampshades, to be purchased separately
